EDUCATION

Maharaja Surajmal Institute

Bachelor of Computer Applications (BCA) – Computer Science

Delhi, India

Sep 2023 – Jun 2026

TECHNICAL SKILLS

Languages: JavaScript, Python, C, C++, HTML, CSS, SQL

Frontend Technologies: React.js, Three.js, GSAP (GreenSock Animation Platform), Tailwind CSS, Responsive Design

Backend & Database: Node.js, MySQL, RESTful APIs

Tools & Platforms: Git, GitHub, VS Code, Chrome DevTools, npm

Core Competencies: Web Development, UI/UX Implementation, 3D Web Graphics, Animation, Performance Optimization

EXPERIENCE

Frontend Developer

Aug 2025 – Oct 2025

KaYa Media

India

- Developing responsive and interactive web interfaces using React.js, JavaScript, and modern CSS frameworks including Tailwind CSS
- Implementing advanced animations and visual effects using GSAP to enhance user engagement and create smooth, professional interactions
- Building 3D web experiences with Three.js, optimizing performance for cross-browser compatibility and mobile responsiveness
- Collaborating with design and backend teams to translate UI/UX designs into pixel-perfect, accessible web applications
- Optimizing application performance through code splitting, lazy loading, and efficient rendering techniques

PROJECTS

Pace – Gamified Task Manager | React, Vite, Tailwind CSS, Firebase, AI, Framer Motion

2026

- Built a gamified Progressive Web App (PWA) with offline support, real-time Firestore synchronization, and Firebase Authentication.
- Integrated an AI productivity assistant capable of breaking down tasks, estimating completion time, and generating actionable task lists.
- Implemented engaging micro-interactions and animations using Framer Motion while optimizing performance and responsiveness.
- Live:** pace-manager.web.app

BMW M4 Competition Configurator | React, Vite, React Three Fiber, Three.js, GSAP

2025

- Developed an interactive 3D configurator with real-time rendering, customizable paint options, and smooth camera animations.
- Optimized rendering performance using lazy loading, component optimization, and responsive asset management.
- Improved SEO with Open Graph metadata and deployed globally using Vercel CDN.
- Live:** bmw-m4-showcase-vlxf.vercel.app

Immersive Web Experience | React, GSAP, ScrollTrigger, Tailwind CSS

2024

- Developed an immersive scroll-driven storytelling experience featuring advanced GSAP timelines, parallax effects, and cinematic page transitions.
- Created reusable React hooks, implemented image preloading, and optimized rendering for smooth cross-device performance.
- Delivered a pixel-perfect responsive interface with high Lighthouse performance and modern UI/UX principles.
